Dear Warden Marques,

I am asking that you please consider granting my uncle Toby Padilla companionate release. Since circumstances have changed at FCI Big Springs and now 6 staff members and over a hundred inmates including my uncle Toby Padilla have COVID-19.

In keeping with BOP Program Statement 5050.50, 18U.S.C. 3582 and the Attorney General's directive to reduce the inmate population in order to protect inmates, staff, and the communities at large from the spread of COVID-19. My uncle has high blood pressure which he takes medication for twice a day. He currently takes 40mg. Lisinopril every morning and 10 mg. Amlodipine every night. He also has foot drop on left leg from a gun wound. Based on my uncles medical records he has a first floor pass and a lower bunk pass. Studies to date also reflect that he is at a heightened risk to get COVID-19 again even after he has gone through it once due to his age, high blood pressure, and him being over weight. Should the infectious and highly contagious disease continue to spread through your facility, as is anticipated based on the experiences of other BOP facilities despite the intentions of the BOP to take steps to mitigate the spread of COVID-19. His ability to self care against COVID-19 is substantially diminished because he cannot isolate himself or take other proactive necessary steps to protect his self as recommended by the Center for Disease Control and Prevention. If released my uncle will reside with his mother or with me which will be his choice. He has job opportunities if released and has no objection to participating in the location monitoring program. He also has an exemplary institutional record no write ups. He is currently on out

custody waiting to go to a camp. He almost has 50 % of his time completed. During that time. He has participated in a number of programs offered by the BOP to assist in his transition back into the community accordingly , he will not be a danger to the community if released.

Thank you for your thoughtful consideration of this request.

Kind regards,  
Gary Romero
